JOB DESCRIPTION:

Klondike Farms is located in south central Wisconsin and is searching for a Farm Operator/Agronomy Assistant for their 8000 acre cash crop and custom farming operation. Looking for a highly motivated, honest, reliable and diversified individual with farming abilities. Duties to include tractor, equipment maintenance and experience with self-propelled machinery operation for fertilizing, planting, cultivating, spraying and harvesting crops. Also, should be able to repair and maintain farm vehicles and implements. This position will spend time operating equipment and also assisting the agronomy team with soil sampling, crop scouting and mixing/loading fertilizer and herbicides. Truck driving experience is preferred, will haul grain to and from elevators in the off season. Need to be a self-starter and able to work a flexible schedule during spring/fall season. Good employer with good opportunity to grow with a progressive farm producer.

This position will have a significant amount of responsibility, duties include:

- The operation, maintenance and repair of equipment, requiring good mechanical abilities
- Prefer experience in GPS set-up and programming, on mapping equipment and use while planting, harvesting and applying fertilizer/herbicide
- Must possess sound judgment and have a solid work ethic.
